

Christmas Sew Day Workshop on Zoom

The following information is for Guild members regarding the Christmas Sew Day Workshop. This project is a **great Stash Buster!** Keep your Christmas scraps handy!

The pattern will be emailed to registered participants one week before the workshop along with the ZOOM linkup information.

Please remember, working on the workshop project is optional and you may prefer to work on something else, while visiting with the group.

Fabric Requirements:

For each **pair** of blocks, you will need:

- **two contrasting rectangles 10.5" x 8.5"** (some green fabric is traditional in Xmas projects but you can be imaginative!) The contrasting rectangles can each be one fabric, or can be from piecing scraps together. You might want to try a mixture of these.
- small amounts of dark brown, black or grey scraps.

To make a **50" x 15" table runner you will need 3 pairs of blocks.** You can decide to make fewer or more blocks depending on your preferred size.

- adding sashing is your preference
- for borders - 4 cuts of 4.5" width of fabric that compliments your blocks
- binding - 4 cuts of 2.25" or 2.5" width of fabric
