

Supply Suggestions for the Valentines/Heart Sew-Along

To create a Valentine theme project such as a table runner, a couple placemats or wall hanging the following supplies are suggested:

- For one pair of blocks (each block will be approximately 8.5 inches each) you will need two 10" squares of fabric (complementary colours such as one solid and one print would work nicely). Additional sets of blocks do not need to be made using the same fabrics.
- A complete top of approximately **36" x 10"** consisting of 4 blocks including sashing and borders **can be made with 3 fat quarters.**
- If using yardage fabric, from each WOF strip of 10", you could have 4 squares so calculations will depend on how many pairs of blocks you want to make; or only cut two squares and then cut sashing from the remaining fabric.
- Sashing and borders are not required for the individual blocks but can be used in completion of the project.
- All the usual quilting tools are needed including your sense of imagination and humour.
